

Maryland Recycling Network

MEMBERSHIP INFORMATION & APPLICATION

The Maryland Recycling Network represents individuals and organizations from every facet of recycling who join together to promote the 3 “R’s” of recycling: “sustainable reduction, reuse and recycling of materials otherwise destined for disposal.”

We know you are focused on the intelligent use of our natural resources and building a healthy environment for our children – but why be one voice when you join a chorus? You’ll make your business stronger and you’ll help grow the recycling movement in Maryland.

MRN members enjoy several important benefits:

- **Networking** – Engage the leaders and thinkers in the recycling community. Share ideas & information, questions & answers on all things recycling.
- **Knowledge** – Stay on the leading edge in recycling technology, training, marketing, operations, regulations, policies and more.
- **Business** – Reach customers & find trustworthy suppliers for your business.
- **Social** – Enjoy the company of people who care about the same things you do.
- **Personal** – Take your environmental pride and passion to the next level as part of a statewide effort to preserve our natural resources.

Key features of membership include:

- **Statewide Conference** – Offering the best in education and technical resources, at a discount for members, by drawing thought leaders, vendors and all players within the Maryland recycling community together under one roof.
- **Events/Tours** – Presentations on recycling issues and concepts and, where possible, facility tours.
- **Monthly E-letter** – The members-only e-letter shares relevant recycling ideas and activities and accomplishments of members.
- **Recycling Knowledge Base** – Built on a collaborative wiki, this growing resource collects and shares viable solutions to commonly shared problems such as recycling construction and demolition debris or calculating throughput in sorting systems.
- **Webinars** – Throughout the year, MRN provides free 30 Minute Idea Breaks which offer an opportunity to hear about and discuss key recycling concepts and issues.
- **Leadership Meetings** – Every other month the board gathers to look at current recycling issues and concerns and cover association business. The meetings are open to all members. It’s a great way to meet your peers, stay on top of issues and help build the network.
- **A Voice & Role** – Members develop and execute MRN programs and craft our legislative efforts and knowledge base. You can join in many ways, from short project tasks to serving on the Board.

***Take an active role in Maryland’s recycling community...
